IMPORTANT

Your Left Hand Panel Foam Kit is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

VEHICLE PREPARATION

GENERAL

1. Park vehicle on a flat surface.
2. Push engine stop switch to OFF position.
3. Turn key to OFF position and remove key.
4. Remove left hand side panel as described in Owner's Manual.

ACCESSORY INSTALLATION

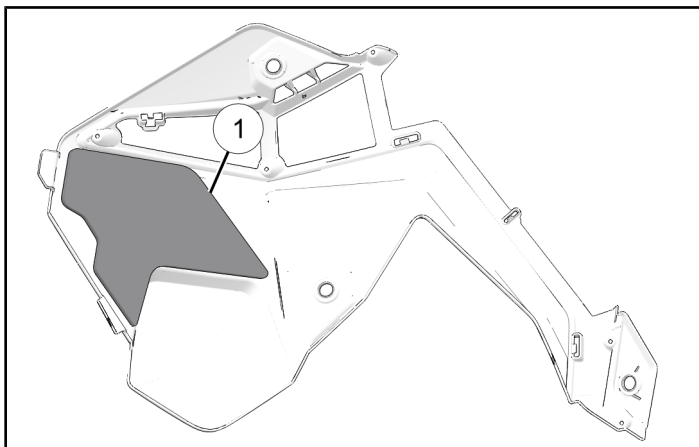

IMPORTANT

All foam should be applied indoors, free from dust, dirt, cold air, and humidity. Room temperature must be between 40 °F and 100 °F.

1. Clean inside of left hand panel with detergent mixture and soft cloth.
2. Remove backing from rear upper foam panel ① at 180° angle and align along style lines, louvers, and edges.

NOTICE

Foam has a very aggressive adhesive. Make sure foam is aligned accurately before applying any direct pressure.

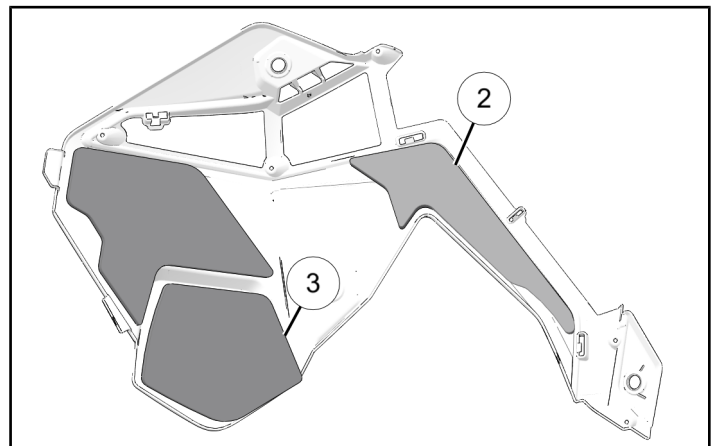

3. Push foam panel with hands to attach. Start with strokes in the center of foam piece and move from center to edges.

NOTICE

To remove foam, use a putty knife.

4. Repeat steps two and three for front upper foam panel ② and rear lower foam panel ③.

VEHICLE REASSEMBLY

GENERAL

1. Attach left hand side panel as described in Owner's Manual.

INSTRUCTION FEEDBACK FORM

A feedback form has been created for the installer to provide any comments, questions or concerns about the installation instructions. The form is viewable on mobile devices by scanning the QR code or by clicking [HERE](#) if viewing on a PC.
